“Newtech Wellness will continue to work towards public health promotion as well as facilitation of everyday sports to enable people to enjoy happy centenarian generation”

Since the establishment of Newtech Fitness in 2002, we have operated a private business until 2011, and established Newtech Wellness Corporation in 2011. Based on the technology and research experience accumulated over the past 20 years, we are rewriting the domestic and international fitness market.

In line with the changing global era, we carry out one-stop service from product development to production, manufacturer, domestic and international sales, delivert, installation and A/S, and thus we are satisfying the various needs of our customers at home and abroad.

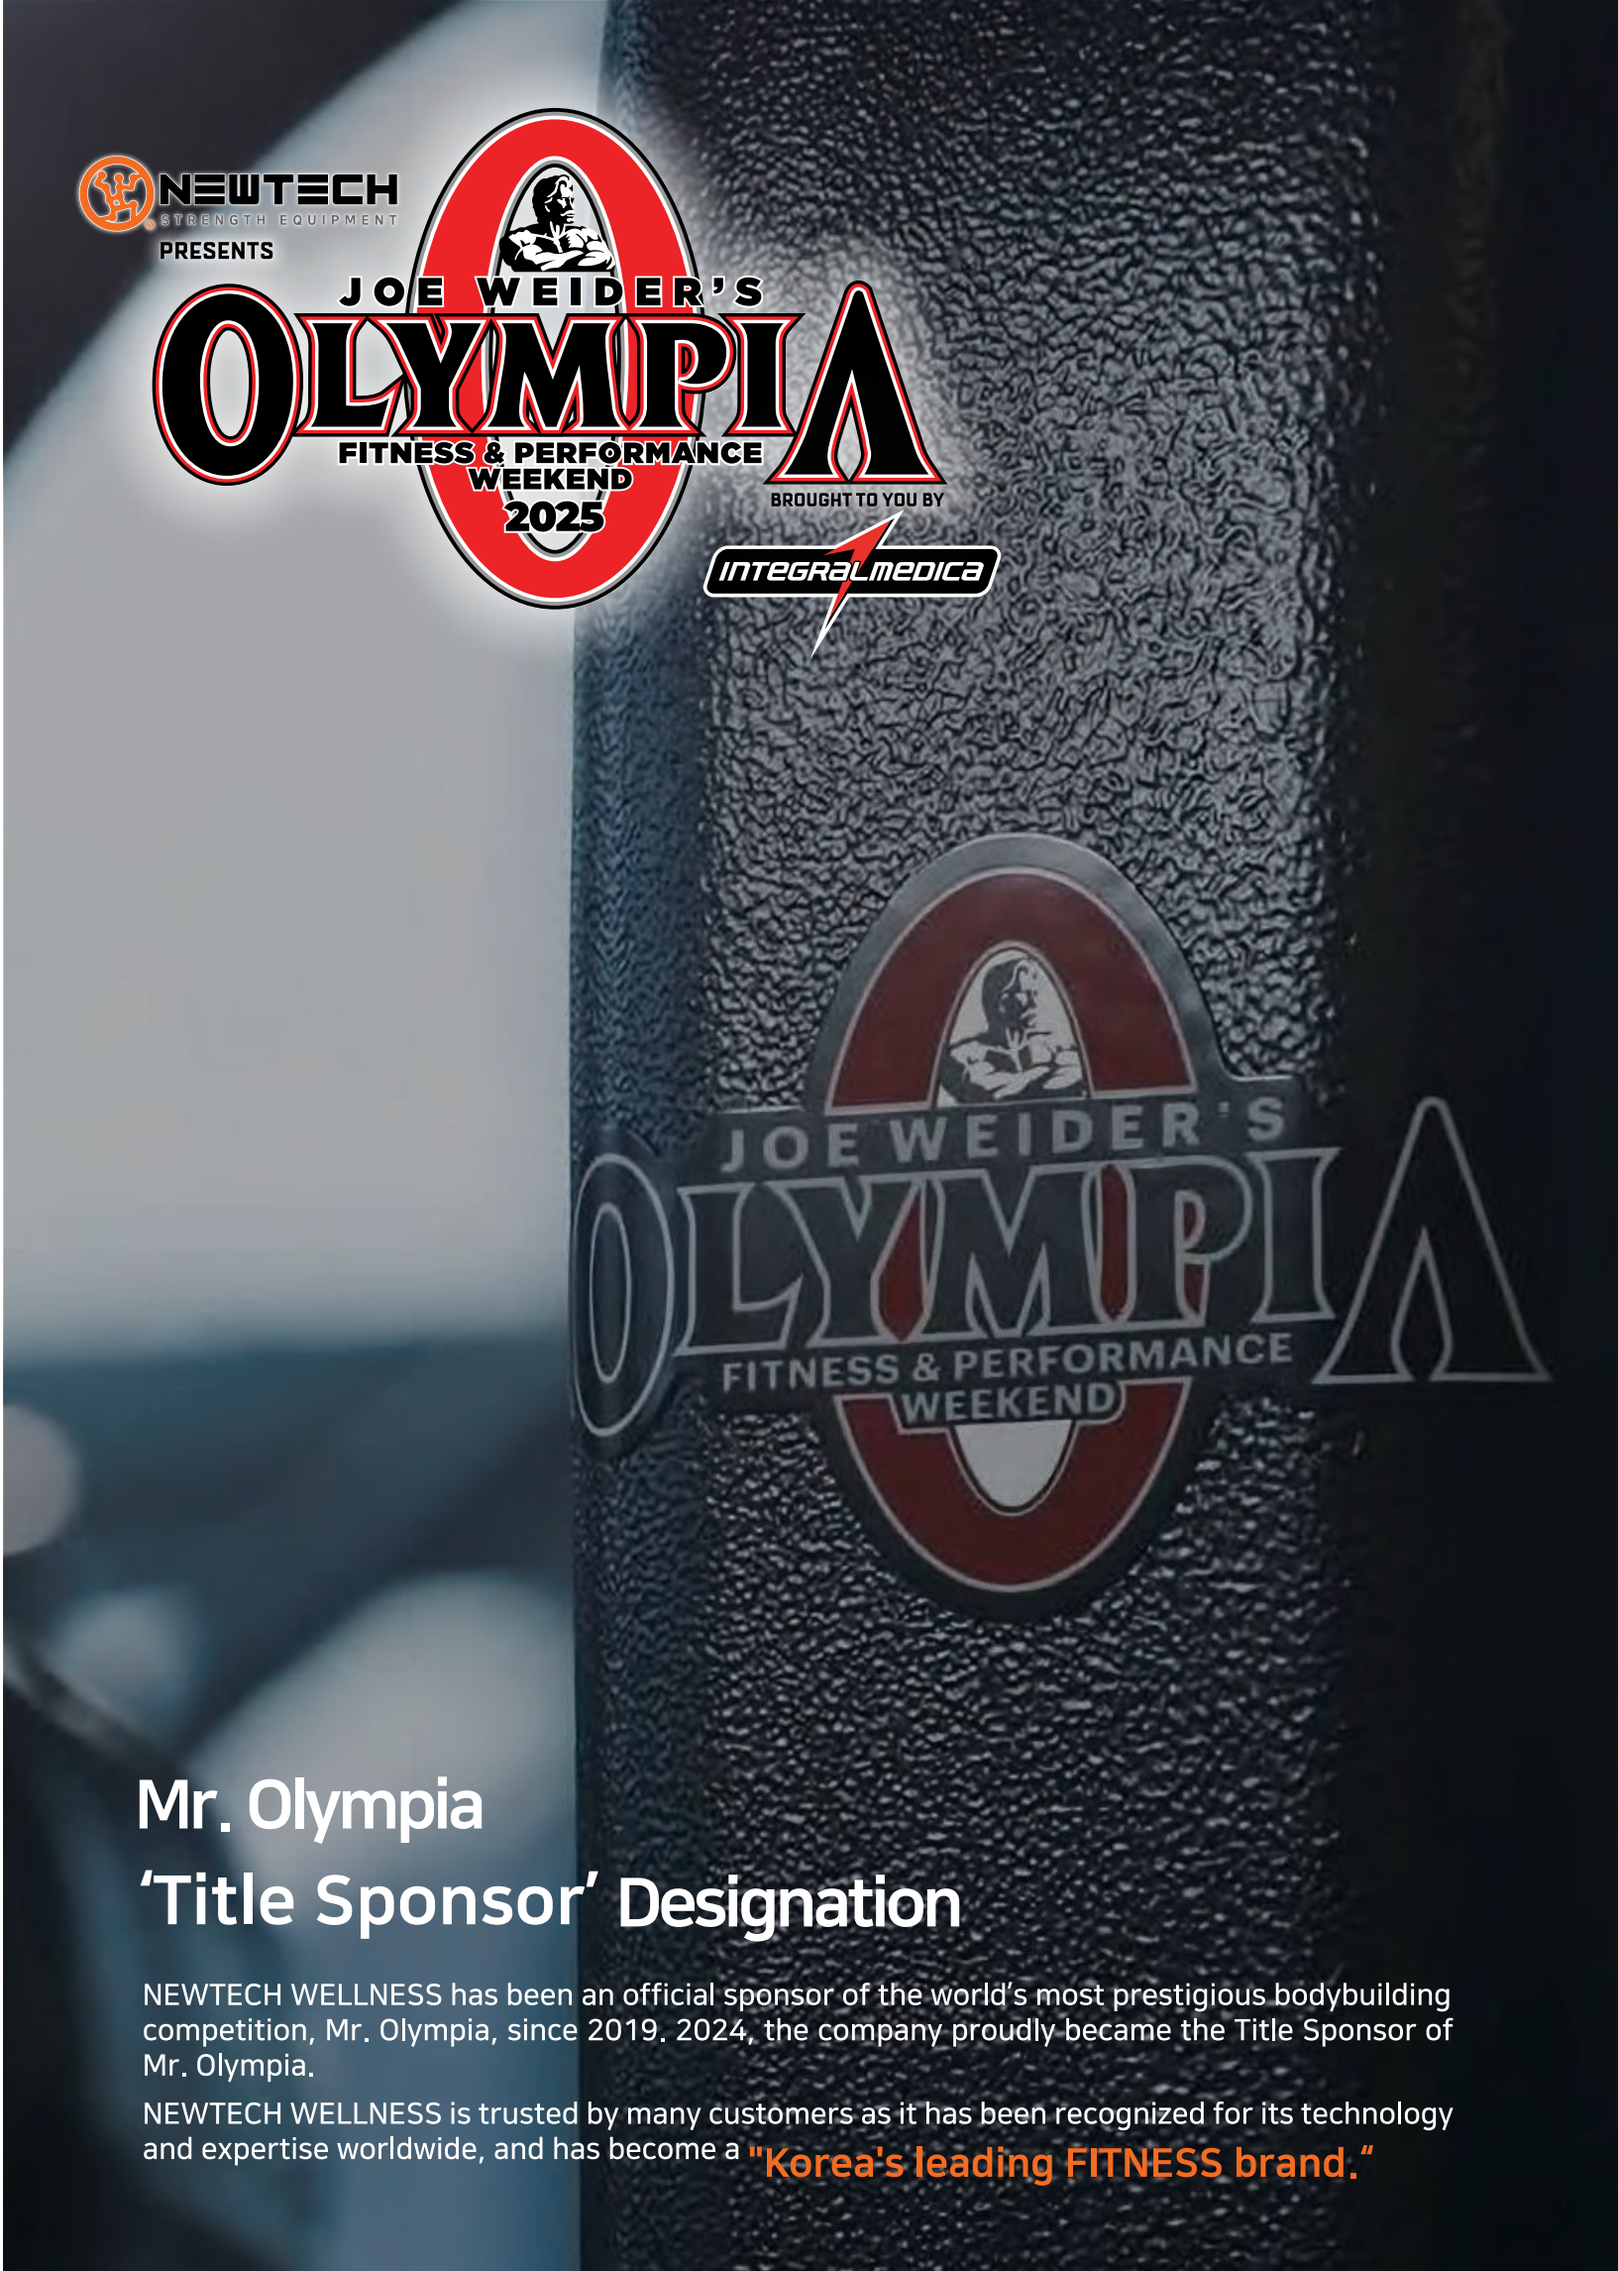

To grow into a competitive firm, our company continues to launch new products, there by proving our technical capability as well as expertise.

BUILD YOUR BODY SCIENTIFICALLY

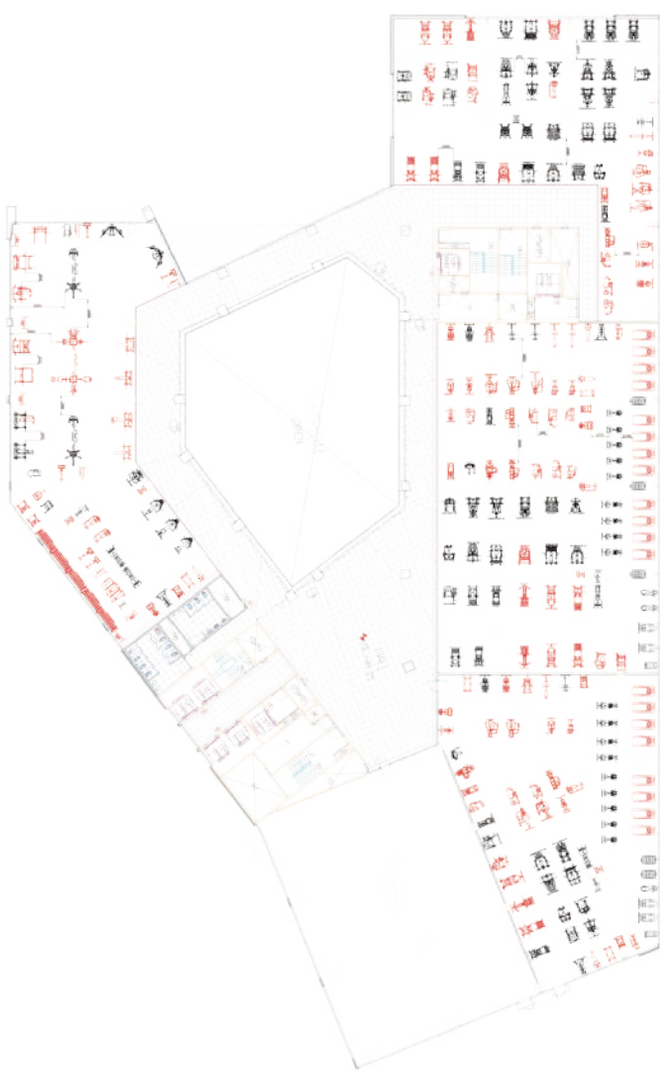

Newtech Wellness Co., Ltd. has a company-affiliated research center, and each professional researcher resides in the company to develop ergonomic/scientific technology.

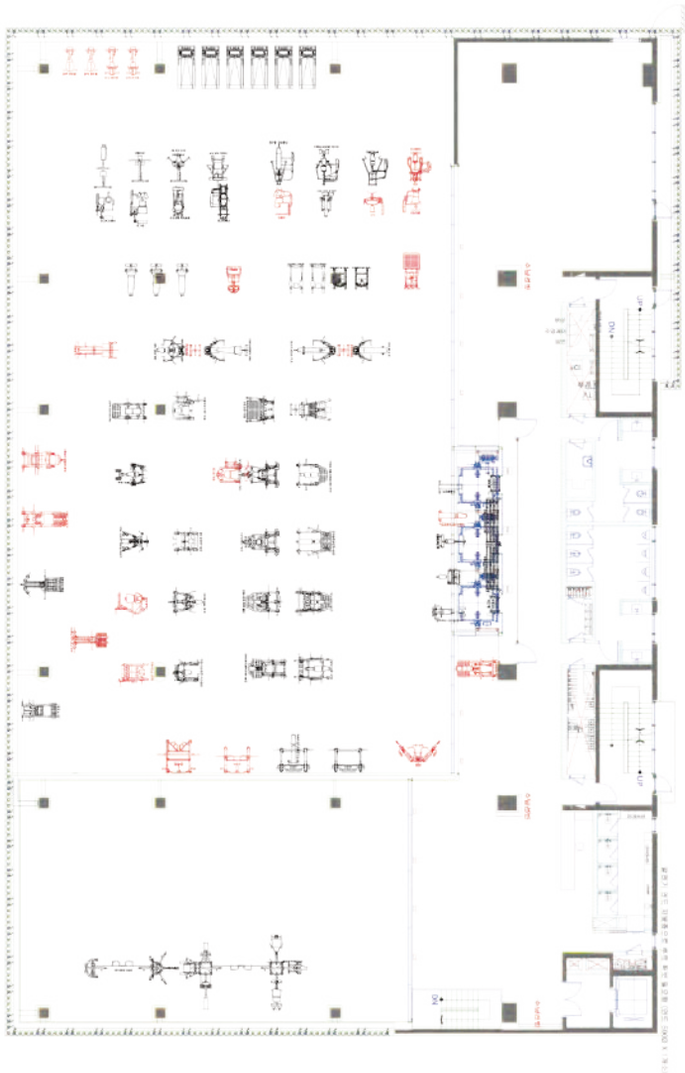

We are also committed to developing new products and improving existing products by finding the best way to effectively improve the beauty of our customers' bodies, focusing on existing popular brands

DECORATE WITH YOUR IDEAL GYM FACILITY

To ensure efficient product placement and space, our experts directly propose layout drawings, identify customer needs, and help you build your ideal sports

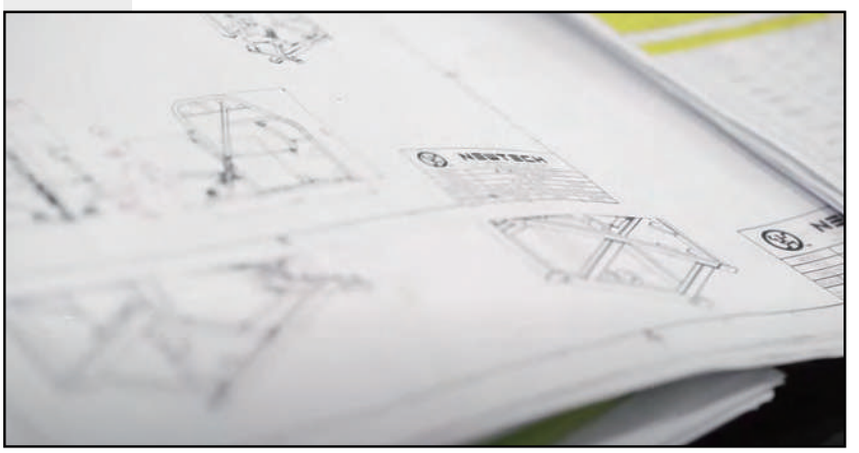

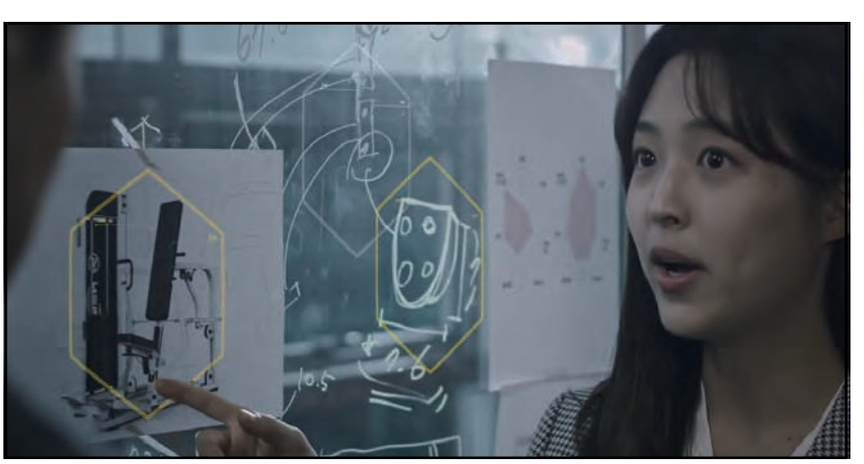

ERGONOMIC TECHNOLOGY DEVELOPMENT

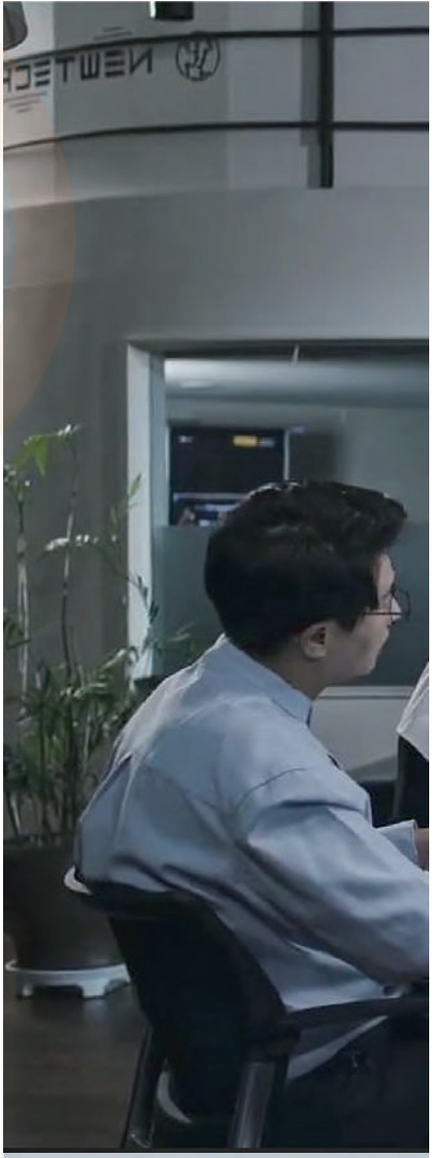

A number of professional researchers in the company are using ergonomics to focus on technology development so that there are no restrictions on exercise for anyone regardless of nationality or gender.

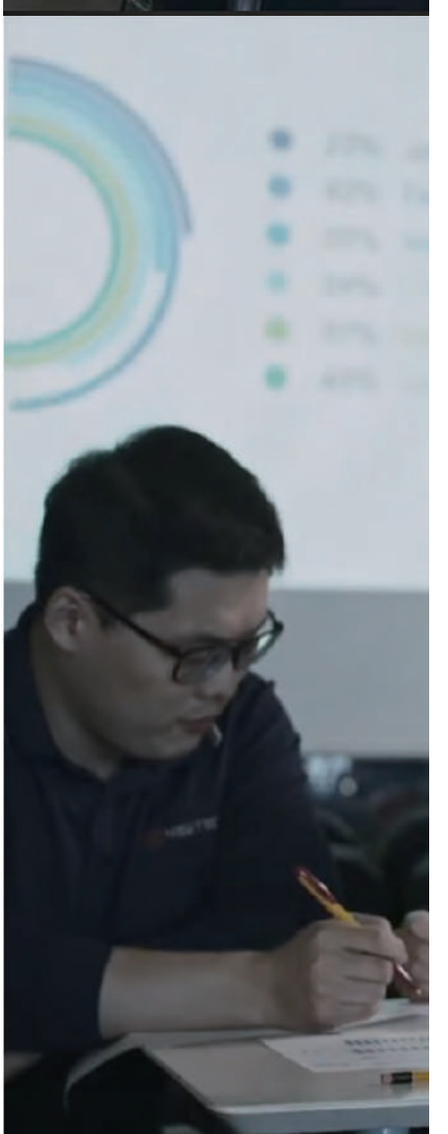

In this way, 'Newtech Wellness' improves more than 10 new products and existing products every year, and continues to strive for technology rights by applying for patents or utility models to further enhance its competitiveness in the global market.
